Bone and Joint
Health Scientists

The McCaig Institute for Bone and Joint Health is home to a multidisciplinary team who has established an innovative, world-class research program to enhance the prevention and treatment of bone and joint conditions. Join the movement and learn how to keep your bones and joints healthy and happy.

November 29
BARAN FABER

Owner and
Operator

How can art and transportation have a symbiotic relationship? The BassBus team has answered the call by converting an old school bus into a mobile art platform. Experience this combination of intricate design elements and cutting-edge technology. What are you waiting for? Get on the bus!

December 27
SUSAN EATON

Founder and
Expedition Leader

Susan R. Eaton, founder and leader of the 2014-2016 Sedna Epic Expedition, will lead a ten-woman snorkel relay of the Northwest Passage. This expedition will embark on a 100-day, 3,000-kilometre snorkel relay to document ocean change and its impact on northern communities. Before beginning this epic journey, Susan and some of her team members will visit TELUS Spark to share their stories. Dive in this December!
